June 30, 2019

To whom it may concern,

I'm excited to be writing to you regarding the Cooler Logistics Manager position advertised on BlueSkySearch.com. With over 7 years of experience supporting business solution software and analyzing business operations, I believe that I am a perfect fit for this role.

As part of my current role as business analyst at OSR, Enterprises, I gather and analyze large amounts of data through databases and excel spreadsheets created by me. Using my knowledge of how to combine data from different sources I can streamline, improve and automate processes. Having an analytical mind and attention to detail, I can pinpoint weaknesses in any process and fix these weaknesses as soon as possible. During my tenure with OSR, Enterprises, I have learned how to work with other departments either as a team leader or team player to achieve company goals.

Among my peers, I am regarded as an analytical crackerjack with expert problem-solving skills. Furthermore, I have a proven track record of translating stakeholder requirements into tangible deliverables that exceed expectations.

I hope to I may be granted a personal interview, if you feel my skills fit me for the position needed.

I appreciate your time and consideration.

Sincerely,

Mauricio Bick
